Subject: We've found a new office

Dear colleague,

We are very happy to share with you that we have found a new office in the World Trade Centre at Schiphol. From the beginning of 2025, this will be the new home for all Aegon colleagues from Corporate Center, Asset Management, International and GTS who currently work in The Hague.

We realize that leaving Aegonplein after 37 years is a big step. But we are convinced that moving to this new location, a great fit with our international profile, is an excellent way to mark the next exciting chapter for our company.

**Why WTC Schiphol?**

Finding a new location was not an easy task, especially with the ambitious criteria we set at the start. We were looking for a joint location for Corporate Center and Asset Management in a vibrant area, attractive to talent, and easy to reach by car and public transport. The building also needed to meet our sustainability standards. WTC Schiphol ticked all the boxes.

**Vibrant environment**

At our new office — with other international companies as our neighbors — you will have shops, coffee bars, restaurants, daycare and a gym just moments away. We will use the coming months to create an attractive space that suits how we want to work. It will provide a good blend of individual and team spaces, supported by the right technology. It will be a great place to collaborate, connect and socialize.

**Easily accessible**

Our new office is easily accessible by car as well as by train. Train journeys from The Hague CS, Utrecht CS and Rotterdam CS are all around 30 minutes. Schiphol offers good parking opportunity. Of course our relocation also creates opportunities to step up to more sustainable travel. It goes without saying that our new office will also be very accessible internationally, making it easier to connect with the colleagues abroad.

**Works Councils**

We have to await the Works Councils' advice before the decision is final. We have kept the Works Councils updated throughout the process and they have visited WTC Schiphol. After reaching out for your input, they will give their advice. You can find more information about this on the intranet soon.

**Want to know more?**

The infographic gives you a quick overview of what WTC Schiphol has to offer. Curious for even more detail? Then take a look at [this video](#) or the [presentation](#).

We are keen to hear your first thoughts and questions. Therefore, we are organizing a Q&A session for which you will receive an invite later today. The session will also be recorded and published on intranet.

We know it is still a while away, but we are already excited about the move.
